A photograph of two young children, a boy and a girl, kneeling on a light-colored rug in a modern kitchen. They are both looking at a built-in oven. The boy, on the left, has short blonde hair and is wearing a yellow long-sleeved shirt, blue jeans, and a tan apron tied around his waist. The girl, on the right, has long blonde hair and is wearing a pink long-sleeved shirt, blue jeans, and brown lace-up shoes. The kitchen features dark grey cabinets and a white tiled backsplash. On the countertop above the oven, there is a silver kettle and a white bowl. The text "Let's get cooking. you" is overlaid in white, with the word "you" positioned below "cooking" and slightly to the right. The text is in a clean, sans-serif font.

# Start with a layout THAT FITS YOUR NEEDS

## STRAIGHT

A corner-free kitchen maximizes your use of space, creates a fresh, open look, and keeps everything close to hand.

## GALLEY

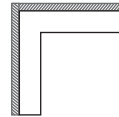

A galley kitchen provides extra counter-space and storage for narrow spaces. Everything's close by, making cooking and cleaning quicker.

## STRAIGHT + ISLAND

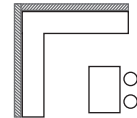

Include an island in your straight layout kitchen for a modern, sociable, open plan feel, and extra preparation area.

## L-SHAPED

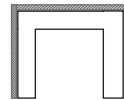

A corner kitchen makes it easy to plan an efficient triangle between the sink, fridge and range. Plus, an open floor space makes room for more cooks.

## L + ISLAND

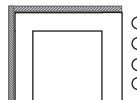

Add storage, work and eat-in space by including an island in your L-shape layout. Makes cooking and entertaining fun and easy.

## U-SHAPED

Wall-to-wall cabinetry in the U-shaped kitchen maximizes storage and workspace. As possible, plan for a window to introduce some natural light.

## U + PENINSULA

Perfect for an open layout home, the U + Peninsula design provides lots of storage and workspace and keeps the cook in the action.

# Superior CONSTRUCTION

With Hugo&Borg, high-quality features are standard and affordable.

5/8 inch side gables and a solid 5/8 inch back panel provide superior strength and durability.

3/4 inch shelves allow a heavier storage capacity.

Cabinet box interior and exterior are water and stain resistant.

Soft-close, extra-wide drawers with undermount hardware for easy access and extra storage. Our drawer slides are under the drawer (instead of on the sides), freeing more space to make drawers wider!

Frameless construction eliminates the typical bulky face frame around a cabinet box, providing a more modern, streamlined look and 20% additional storage space.

All hinges are soft-close, preventing doors from slamming shut.

# High *shhhht* standards.

Our soft-close doors and drawers are standard in all Hugo&Borg cabinets. After all, your ears should enjoy your home as much as your eyes.

*Your home - your style*

We're in your corner.

Our corner cabinets feature a 2-tier lazy Susan for easy access to all your cupboard contents.

# Why should the kitchen be the only room that looks this good?

Our cabinets make great storage solutions all around the house from foyer to laundry room, bathroom, office and more!
